| | Please add country-code (+49) and remove the first 0 in (040) | | | I have not listed the following hotels in any particular order. I took them out of a catalogue which I got in the tourist-office but there might also be other hotels which might be interesting. We live near the university-area (Grindelhof) and it would be nice if you find a place relatively close by. (E.g. Schanzen (between U-bahn stop Sternschanze and Feldstrasse) or city-centre.) I recommend you to also have a look at a map over Hamburg. Altona is a very nice area, although it might seem a bit far away if you go out late somewhere else. |

Hotels which can be booked on the website: www.hamburg-travel.de

I am not recommending any hotels on, or in the immediate vicinity of Reeperbahn. Although there are probably some decent ones there also. The same with the area of St. Georg, but again, there are probably some nice hotels there too! I have only taken notice of a very few hotels with prices starting from 50€, I can recommend more if requested, or look at the website.
