

# First Franco-Chilean Workshop on Bioprocess Modeling

January 14 – 15, 2010.

Valparaíso

This activity gathers researchers in science, technology and engineering interested in the mathematical modeling of biological processes.

The program includes presentations and discussion sessions on water resources, bacterial population growth and competition.

Graduate students in related fields are welcome to participate.

## Organizing committee

Pedro Gajardo

Juan Peypouquet

Héctor Ramírez

Gonzalo Ruiz

Special participation of the  
INRIA MERE research group  
on water resource modeling.

The workshop will be held at CORFO technological building at  
Curauma Industrial Park, Valparaíso.

Registration is free but mandatory before January 5 at [juan.peypouquet@usm.cl](mailto:juan.peypouquet@usm.cl)  
Limited number of participants
