ACADEMIC CALL  
FOR FEMALE  
PHD STUDENTS  
MATHEMATICAL ENGINEERING

## DIM Academic Openings 2021 Program for Gender Equality in Academia

Department of Mathematical Engineering  
Faculty of Physical and Mathematical Sciences  
University of Chile

### Description

The Department of Mathematical Engineering (DIM) at the Faculty of Physical and Mathematical Sciences (FCFM) of the University of Chile is seeking excellent female candidates for a position at the department through the Program for Gender Equality in Academia (PEGA) of FCFM. The objective of the program is to increase the proportion of women in the faculty. This opening is aimed exclusively at women with a bachelor/professional degree or equivalent academic degree in mathematics or related fields, who are currently enrolled or committed to enroll in a PhD program. The successful candidate will begin her academic career at DIM upon completion of her doctoral studies, and is expected to work in one of the areas cultivated at DIM\* (algorithms and combinatorics, mathematical mechanics and inverse problems, nonlinear partial differential equations, optimization and equilibrium, probability and ergodic theory) or in related areas.

### Application

The following documents should be sent to the email address [pega2021@dim.uchile.cl](mailto:pega2021@dim.uchile.cl): curriculum vitae, academic transcript and statement of purpose. In addition, at least three recommendation letters should be sent directly by the recommenders to the same email address, [pega2021@dim.uchile.cl](mailto:pega2021@dim.uchile.cl). All documents should be submitted by **February 28, 2021**. Decisions are expected to be informed by April 2021 at the latest.

For further information contact [infopega2021@dim.uchile.cl](mailto:infopega2021@dim.uchile.cl)
